

# Jeremiah J

Final-year CS student with full-stack and AI engineering experience

📞 9159192525 ✉ jeremiahj7162@gmail.com 🔗 LinkedIn 📁 Portfolio 🐙 GitHub 📍 Tenkasi, India

## PROFESSIONAL SUMMARY

Final-year B.Tech CSE student with hands-on experience across full-stack development, backend engineering, and applied AI. Designed and deployed an AI-powered CRM that cut manual lead-response effort by ~60% in simulated testing, and engineered a real-time IoT early-warning system for landslide-prone regions. Co-author of a published research paper on federated digital twins for remote patient monitoring.

## INTERNSHIPS

### Full stack developer Intern

Jun/2024 – Jul/2024 | Virtual

Ediglobe Solution Pvt. Ltd.

- Developed responsive web applications using HTML, CSS, JavaScript, and modern web development practices.
- Assisted in backend development, database integration, and REST API implementation.

### Python Programming Internship

Jun/2025 – Jun/2025 | Virtual

CodeTech IT Solutions

- Implemented data structures, automation scripts, and problem-solving solutions through practical assignments.
- Improved debugging, code optimization, and software development practices.

### Cybersecurity Internship

Jul/2025 – Oct/2025 | Virtual

Cisco Networking Academy

- Gained hands-on experience in network security, cybersecurity fundamentals, and secure network design.
- Strengthened knowledge of cybersecurity best practices, network protocols, and infrastructure security.

## EDUCATION

### B.Tech in Computer Science and Engineering

Aug/2023 – May/2027 | CGPA: 6.11

Karunya Institute of Technology and Sciences

### Higher Secondary (Computer Science)

Jun/2021 – May/2023 | Percentage : 74.3 %

Hilton Matriculation Higher Secondary School

## PROJECTS

### IoT-Based Landslide Detection System

- Engineered a real-time early-warning system for landslide-prone slopes, monitoring soil moisture, vibration, rainfall, temperature, and humidity
- Tech:** ESP8266 Wi-Fi, DHT11, ThingSpeak, Blynk, C++, Arduino

### LeadSync CRM

AI-Powered Smart Inbox

- Developed and deployed an AI-powered CRM enabling real-time, multi-platform lead automation across Telegram and Instagram, cutting manual response effort by ~60% in simulated testing
- Built the AI sentiment-scoring engine (-5 to +5) and automatic intent classification (Ordering / Support / Inquiry) using Groq Llama-8B
- Tech:** Node.js, Express, MongoDB, Groq Llama-8B, React, Vercel, Railway

## TECHNICAL SKILLS

### Programming Languages:

Python, Java, JavaScript, C

### Frameworks & Libraries:

React.js, Next.js, Node.js, Express.js

### Databases & Cloud:

MongoDB, Vercel, Railway, Git/GitHub, Supabase

### AI/ML:

NLP, LLM Integration (Groq Llama-8B), Sentiment Analysis, Whisper

## ACHIEVEMENTS & PUBLICATION

### Co-Author, "Federated Digital Twins (FDT) for Geriatric Remote Patient Monitoring"

01/2026

ICSHI 2026 (AICTE-Sponsored)

### IIC Hackathon Challenge 2026

02/2026

2nd Place, PSG College of Arts & Science

## CERTIFICATES

- Microsoft Certified: Azure Fundamentals (AZ-900) — Apr 2026
- Oracle Cloud Infrastructure (OCI) 2025 Certified Data Science Professional — Oct 2025
